MR. HARRISON'S CHANCE.

A Veteran Observer Says He Must Win at the Start if at All.

MINNEAPOLIS, June 3.—Still they come for the big convention. Republicans of national repute, of State repute, and of no repute at all outside their own localities. But all bling of next Tuesday and all sure that the particular somebody whose nomination they favor will be the chosen one.

less to dally with individual prophestes just now. Nobody can tell, and perhaps nobody would tell if he could, how things are going. But it is worth while to take account what some shrewd observers think.

"Gath." the famous Washington corre ident and political interviewer, has set it down to his note-book that if Harrison cannot get in on the first ballot he is lost. But the Administration managers say that on that precise ballot Harrison will get in.

Another impression of "Gath" is that the

ne is distinctly between Harrison and Blaine and that only by one or the other of those men withdrawing can any other candidate get in. Gossip about the Chairmanship or the Con-

best depend upon to push their plans for notified the Committee that he wouldn't take the place, but that doesn't stop eitner the rumor or the anti-Harrison schemers. Pshaw ! Did not even Blaine himself write a letter of declination long weeks ago? These are days when declinations are apparently not allowed

A good story circulated here attributes the recent giving out of Alger's war record to Houk, delegate-at-large to the Minneapolis Becretary Elkins. It is declared that the Convention, declares he will not vote for matter was made public in the interests of the President, as it was feared that Alger licans in the Cabinet appointments. had worked up a popularity greater than Harrison's own among the soldiers and was cidedly in the Administration's way. Naturally the Anti-Harrison men do not aid

in the suppression of this story. The Jerry Rusk boom is still here to an extent, but is being gradually swallowed, as the Blaine movement becomes more nounced, in the ffica that Rusk will do well for second place on a ticket with the Plumed Knight.

Taking the position now that the nomination must go either to Blaine or Harrison, it needs only the most casual circula- master-General Frank Hatton thinks that tion among the politicians here to show anyone that there will be an abundance of injured feelings to look to after the Conventional Sleevis and boots at election time for cither candidate. tion has done its work.

Mr. Blaine—In connection with my visit to New York you will probably hear that it has a political meaning. A construction may be put on it that will please neither you nor me.
